

Moth into Your Flame

Scouting for Girls

I'm like a moth into your flame
I'm like a moth into your flame
I need your love
Even though it gives me pain

Your love hit me like a landslide
You turned me down from the inside
I'm giving up, pretending that it's alright
Always
Relax, I won't be leaving
Even though you give me every reason
I'll be yours as long as I'm breathing
Always
Since your hands killed my heart
Attracted backwards, all the broken vows
But still I come back again
But still I come back again

I'm like a moth into your flame
I'm like a moth into your flame
I need your love
Even though it gives me pain

And your love caught me like a spotlight
And your words touched me like an extra
And you said everything is alright
Always
Don't trip, I found our chances
I've had enough of your hard brunches
And you're the one who's holding all the answers
Always
Since your hands killed my heart
Attracted backwards, all the broken vows
But still I come back again
But still I come back again

I'm like a moth into your flame
I'm like a moth into your flame
I need your love
Even though it gives me pain

I need your love
Even though it gives me pain
Twinkle, twinkle little star
Show the world who owns your heart
On my knees with hands held high
I'll be yours until I die

I'm like a moth into your flame
I'm like a moth into your flame
I need your love
Even though it gives me pain

I'm like a moth into your flame
I'm like a moth into your flame
I need your love
Even though it gives me pain

I need your love
Like a moth into your flame
A moth into... a moth into your flame
