

The Airplane Song

Scouting for Girls

She's a strawberry milkshake
She's as sweet as a peach
But she's ice cold, she never told me
She was leaving

She left on a Friday
I went out for the day and she left for the year
She never told me, she was leaving

So get yourself on that aeroplane
Cos it's been far too long since you went away
Get yourself on that aeroplane
Cos it's been far too long since you went away
She's so extraordinary
She left last January
And that's the reason I miss you so

She's a messy creation
She hit the road, but the road hit back
Nobody told me, you were an island
I will wait for a life time
I be counting the days since you left one way
Nobody reaches her island

So get yourself on that aeroplane
Cos it's been far long since you went away
Get yourself on that aeroplane
Cos it's been far long since you went away
She's so extraordinary
She left last January
And that's the reason I miss you so

So give me a chance
I want you to know
I want love you and leave you and then let you go
I need to sort myself out
Can somebody show me the way
And nobody knows it's the way (the way)
And nobody knows

You gotta give me a chance and say you'll come home
I will love you and leave you, then let you go
You're always hard on yourself
But nobody knows it's the way

And nobody knows it's the way (the way)
And nobody knows it's the way (the way)
And nobody knows it's the way (the way)
And nobody knows it's the way
Nobody knows the right way

And get yourself on that aeroplane
Cos it's been far too long since you went away

Get yourself on that aeroplane
Cos it's been far too long since you went away

Get yourself on that aeroplane
Cos it's been far too long since you went away

Get yourself on that aeroplane
Cos it's been far too long since you went away

Get yourself on that aeroplane
Cos it's been far too long since you went away

Get yourself on that aeroplane
Cos it's been far too long since you went away

She's so extraordinary
She left last January
And that's the reason I miss you so
