

Stuck in a cycle of generated joy  
Wish me good luck with my shiny new toy  
Attention expired yesterday  
What's next will surprise you  
I'm wired this way

I'm wired this way  
Wired this way  
I'm wired this way

Staring at a screen instead of talking to me  
Don't want a wasted life  
There's really no way out  
Staring at a screen instead of talking to me  
Don't want a wasted life  
There's really no way out

Wired this way  
Wired this way  
Wired this way  
I'm wired this way

We can't escape this frame of mind  
I'm checking out and losing time, time  
We can't escape this frame of mind  
I'm checking out and losing time, time

Staring at a screen instead of talking to me  
Don't want a wasted life  
There's really no way out  
Staring at a screen instead of talking to me  
Don't want a wasted life  
There's really no way out
