

Dead Cities

Scream

A metro night
Light up the faces
Scan the horizon
Hear the whispers
In the dark spaces
Brings you there

Well it's grand, yeah
Walking the gutters
Stronger than hurt
You can't believe
As we sing from the balconies

Call it a cry, call it a cry
Call it a cry, call it a cry
Call it a cry, call it a cry
Call it a cry

The town is dark
'Cept the sparkle streets
Shine like mighty diamonds
Cut the gut
Heartbeats
Hazards of life

Feel the leaves as they blow
Empty beaches, seagull shadows
Hurry, hooray
As we scream from the balconies

Call it a cry, call it a cry
Call it a cry, call it a cry
Call it a cry, call it a cry
Call it a cry

This city is dead for it
This city is desperate
This city is dead for it
This city is desperate
This city is dead for it (For love)
This city is desperate
This city is dead for it (For love)
This city is desperate
This city is dead for it (For love)
This city is desperate (For love)
This city is dead for it (For love)
Dead cities, dead cities

Go

Call it a cry, from the balconies
Space of praise, call it a cry
Call it a cry, call it a cry
That breaks your heart
Call it a crime
