

Piece Of Her Time

Scream

You're at a party
You got a girl in sight
You just wanna rock 'n' roll
You're hoping she just might

All I want is a piece of her time
Don't know her name, she don't know mine
All I want is a piece of her time

I know what I want
You know they all need it too
I think I'll take it
To have something to do

All I want is a piece of her time
Don't know her name, she don't know mine
All I want is a piece of her time

All I want is a piece of her time
Don't know her name, she don't know mine
All I want is a piece of her time

She's the girl of the day
Just for awhile
Then I'll be on my way
After she smiles

All I want is a piece of her time
Don't know her name, she don't know mine
All I want is a piece of her time

Piece of her time
It's all I want
