

The Bearded Lady

Screaming Females

The smartest person up for sale
Have you heard about the killer whale?
Yeah, I know him very well

The elderly, they make their peace
Choking on their rosary beads
I know them very well

I lend my hands to dissonance
And participate in a deadly dance
I am quite aware

And in this band of coventry
Hang by steel noose, up in that tree
I am quite aware

The hand and what we feel
The bearded lady is real
I know her very well
