

## Where I Live

## Screaming Females

I'm a champion  
It's in my blood now  
I'm a total loss  
No grounds for resource  
I'll say I was forced  
Lean over the bar

Shatter the night  
Glass in my bed  
Crown pierce my palm  
Hole in my head  
What splendid fiction  
Take me back  
I spit and curse

And so if you want trial by blood  
Then I'll never get enough  
I wish you'd love me  
And hold me  
Your cancers controlling  
If you want trial by blood  
Then I'll never get enough  
I wish you'd love me  
And hold me  
Your cancers controlling

Then I went mad  
Stretched to full stop  
Drop her on the head  
Blame my sorrow  
Blame agony  
Stick me til I'm bled  
Why can't you see  
That I need you  
A perfect diamond dipped in glue  
We're burnt alive  
The distant sea  
A shadow throws to me

If you want trial by blood  
Then I'll never get enough  
I wish you'd love me  
And hold me  
Your cancers controlling  
If you want trial by blood  
Then I'll never get enough  
I wish you'd love me  
And hold me  
Your cancers controlling

Hang my feet over the edge  
Where everything's forgotten  
You have built this giant hole where I live  
Cooked a feast to fascinate  
A mouthful keeps me hoping  
Cruel enough to blame and damned to forgive

I'm a champion  
It's in my blood now  
I'm a total loss  
No grounds for resource  
I'll say I was forced  
Lean over the bar

Why can't you see  
That I need you  
A perfect diamond dipped in glue  
We're burnt alive  
The distant sea  
Late afternoon  
You can see me
