

All Over Town

Screeching Weasel

Did you think about the way this was going to end up looking? Did you think about it when you made me your little fool?

Well, now it's all over town Now it's all over town (2x)

Once again I took it rough and maybe took it way too far But I'll never play the chump in your chain of broken hearts

And now it's all over town Now it's all over town (2x)

What have you got to say Now that you're not up on that pedestal? So what if your reputation ain't what it used to be? It's not my fault; you brought it on

And now it's all over town Now it's all over town (2x)
