

All Stitched Up

Screeching Weasel

All stitched up
Scars up and down
Awful rough but I'm loaded and locked
All fixed up
Worse for the wear
Sure but still I'm back and ready to rock

Looks like you've created something
That you can't control
Knock me down and pull me back up again

All stitched up
Back from the dead
No more talking back or running away
All fixed up
Think maybe this time I'll
Do everything that you say

Looks like you've created something
That you can't control
Knock me down and pull me back up again

All stitched up
Just a copy of a copy
Bounce me around like a ball
All fixed up
Till there's not anything left
To contradict you at all

Looks like you've created something
That you can't control
Knock me down and pull me back up again
Knock me down and pull me back up again
Knock me down and pull me back up again
