

Bleed Through Me

Screeching Weasel

I've been going all night
Heading into the dawn
White lines, road signs, and moonlight
Turn the music up and drive on

I've logged so many miles
But I'm still so many away
And I've run through the conversation
So many times
That all I really want to say

Is you can bleed through me now, darling
You can bleed through me now, darling
You can bleed through me now, darling
You can bleed through me

Sun breaks on the horizon
Leaving all the darkness behind
And while I know I'll never get where I'm going to
One last thought is in my mind

You can bleed through me now, darling
You can bleed through me now, darling
You can bleed through me now, darling
You can bleed through me now, darling

You can bleed through me
