

Crawl

Screeching Weasel

Remember when you went to school?
Remember when you hated the rules?
Remember when you thought that you were right?
We got a little news for you, men
You all belong to us now, vermin
We're gonna break you down and set you straight

We're gonna make you cry
Gonna make your crawl
We're gonna teach you some respect
Yeah, we're gonna make you cry
Gonna make you crawl
We're gonna teach you some respect

We know how bad your life was fucked up
We know the secrets you're ashamed of
We know the [?] truth, can't bullshit us
Someone's always watching to keep you honest
You'll learn to love our twisted logic
Humiliation and guilt [?]

Yeah, we're gonna make you cry
Gonna make you crawl
We're gonna teach you some respect
Yeah, we're gonna make you cry
Gonna make you crawl
We're gonna make you one of us

Yeah, we're gonna make you cry
Gonna make you crawl
Gonna teach you some respect
Yeah, we're gonna make you cry
Gonna make you crawl
We're gonna make you one of us
