

Friday Night Nation

Screeching Weasel

Used to be a little punk Then she suddenly grew up Like she stepped into a time warp She's tattooed with old school flash And listening to Johnny Cash As though it somehow makes her interesting

Don't you know First! We're gonna get all dressed up Next! We're gonna get all messed up Third! We're gonna get all scraped up From the floor and start it all over now

Once upon a time that kid Didn't care if he fit in But he felt like such a nobody Now every night he's buying drinks For the scencesters 'cause he thinks It'll boost his popularity

Don't you know First! We're gonna get all dressed up Next! We're gonna get all messed up Third! We're gonna get all scraped up From the floor and start it all over now

First! We're gonna get all dressed up Next! We're gonna get all messed up Third! We're gonna get all used up And wrung out in a Friday night nation

First! We're gonna get all dressed up Next! We're gonna get all messed up Third! We're gonna get all scraped up From the floor and start it all over now

First! We're gonna get all dressed up Next! We're gonna get all messed up Third! We're gonna get all used up And wrung out in a Friday night nation

They don't want to be alone (on Friday night) (4x)
