

Settle In

Screeching Weasel

I didn't call this one
I didn't see it coming
Don't know what I did or what I said
Okay, take care, so long
Whatever went so wrong
It's over, and I've gotta move ahead

Time is moving slowly, but I'll be as patient as I can
I'll think about all those mistakes I won't make again
Don't know what tomorrow might bring
I hope that it changes everything
But if it doesn't, then I guess I'll have to settle in

Don't start regretting
It was bound to all fall through
Don't worry now
I won't be back to bother you
Don't waste your time
And I won't waste mine on what might have been
Just walk away and settle in

Time is moving slowly, but I'll be as patient as I can
I'll think about all those mistakes I won't make again
Don't know what tomorrow might bring
I hope that it changes everything
But if it doesn't, then I guess I'll have to settle in

Time is moving slowly, but I'll be as patient as I can
I'll think about all those mistakes I won't make again
Don't know what tomorrow might bring
I can't see it changing anything
So until it does, I guess I'll have to settle in
