Stupid Over You

Screeching Weasel

Madonna I'm in love It dosen't make too much sense But when I saw you on TV This sounds so ridiculous But I can't help the way I feel When I look at your chubby face Sandra I don't understand How you always do it The world's most lucky man is either Jerry Lewis or David Lette I wish I was your late night man Cause I get so stupid over you [x4] Even though you're big and famous in movies and MTV Can't the three of us go out and see midget wrestling Cause hanging out with you Would definately be my dream come true Cause I get stupis over you
