

# A Place We Both Belong

Scritti Politti

I heard about your place in summertime  
So good you get yourself together now  
Your sister called and she told me  
'Bout a time to make believe in a place we both belong  
And I'll be waiting there

No telling there was just no telling me  
I could hear you but I got that spell on me  
I left the house back in June  
In a time of make believe  
For a time of make believe  
In a place I don't belong  
I've been wasted there  
And I'm singing

In a time to make believe  
In a place we both belong  
In a place we both belong  
And a time to make believe  
And a time to make believe

And I can make amends  
I can show you I learned my lesson  
And learned it good  
If you trust me again  
I can make this success the second time around

Promise to be there  
As long you need me  
Promise to still care  
I promise to still care  
I promise you that we'll be good again  
In a time to make believe

Gotta give it time everybody say  
That's true but it still hurts anyway  
Strong that I can do this  
Yes I can  
In a time of make believe  
In a place we both belong  
We'll all belong  
I can make it there  
I'm singing

It's coming I could feel it coming now  
Wind is beating and the rain is drumming now  
In the storm before the dawning  
Of a time to make believe  
Of a time to make believe  
In a place we'll all belong  
We'll all belong  
I'll be waiting there  
I'm singing oh

And I'll meet you there  
I'll be waiting there  
In a time to make believe

In a place we both belong
