

# I Never Wanted

Scrubs

i never wanted, i never wanted to be anything, anything at all  
i never wanted, i never wanted  
to be anything but a rock n' roll star...fuck yeah!  
when i look through the mirror at you  
you see yourself ten years ago  
all i know is that you're not happy  
cuz one time you heard the same thing as me  
so go go go to college like your friends  
pick a major get a job and plan a career  
it seems like no one will listen  
i don't know what i wanna be but at least i know what i  
don't wanna be, yeah

i just want to have some fun while i'm still young  
you say you don't want an office job  
rest of your life spent in a dungeon  
i often say the same thing as you  
but the difference is i really mean it  
life's full of those decisions to make  
decisions imposed by society  
if i were a caveman i wouldn't have those  
i'd hunt my food and say 'fuck it all!' and not have to  
worry  
so go go go to college like your parents  
make friends and plan the rest of your life, yeah  
there's really no one who'll listen  
i don't know what i wanna be but at least i know what i  
don't wanna be, yeah  
i just want to have some fun while i'm still young
