

Can't Tell

SD

Let's introduce me baby, it's more to tell
Let's add up all the dollars, problems, bring out the scale
Won't hesitate, don't push me, bullets won't ever tell
But we can keep it balanced, get money at show and tell
I'm starting off the rook, promise you I'll make bail
I smoke that Ashton Kush, I can't think straight for real
Turtle I see you looking, knock you right out your shell
Ain't no reason we do this, but it come from the real
She home alone
In Aroma, no clothes on
She act a fool, my long term
Boy she a goon, she hard to own
But yeah she know, my party home

I guess you got some problems but nigga I see you frail
Won't hesitate to spark it when nigga I can't tell
I wonder what's his problem, he moving out of Braille
It's too late, he dissolving, ain't no one else can help
I guess you got some problems, nigga I see you frail
Won't hesitate to spark it when nigga I can't tell
I wonder what's his problem, he moving out of breath
It's too late, he dissolving, ain't no one else can help

Surprised my Louis bitch, the bossiest nigga can't tell
I wonder what's the price to get your body uplift
But money just a homie, we feel like we in two deals
I used to sleep on couches now I'm moving up the stairs
I used to catch busses, now nigga hold down your fear
Might just find me some action and light up Christmas for real
This ain't no Nickelodeon, Jimmy hold on your head
Cause I can Neutron and get you left where you stand
Just hold on
What he do? His money wrong
What can we do? Let's move on
He might be through, so long gone
What Should I do, his body stone

I guess you got some problems, nigga I see you frail
Won't hesitate to spark it when nigga I can't tell
I wonder what's his problem, he moving out of Braille
It's too late, he dissolving, ain't no one else can help
I guess you got some problems, nigga I see you frail
Won't hesitate to spark it when nigga I can't tell
I wonder what's his problem, he moving out of Braille
It's too late, he dissolving, ain't no one else can help
