SD

Don't be surprised if I take off on you (I'm over you)  
Don't show you off, I might embarrass you (I'm over you)  
I'ma take my cash and leave right out the door (I'm over you)  
It's about the party, why waste time with you (I'm over you)

Baby don't think yo life cost more than it really do  
She say money ain't a thing  
But it make you do what I want you to  
She mad cause money all I think

It's a cold world baby, so don't think  
Let me choose  
You were in the crowd full of lames  
It ain't no telling who is who  
I'm the boss baby girl  
I gotta squad full of shooters  
If you really seeing me, tell me what would you do?  
It ain't a problem to the God cause I got Killer's 'round me too  
It's just these hoes gotta know that my money found his boo

I'm over you and I'm tired of playing games girl  
At first it was all cool but shit is not the same girl  
Some do it for the money, some do it for the fame girl  
If you ain't tryna glo up tell me what you came for  
Really I'm over you, ain't going back to them days now  
I'm tryna put in time  
And overtime so we can ball  
Now I'm taking my cash but your triffling ass won't stop calling  
You see me in the back, watching videos with my mind blow'n  
Shorty I'm so over you  
Ain't tryna embarrass you  
You act just like a cheerleader, got ya girls coaching you  
Try to get close to you  
Almost proposed to you  
I'm glad I didn't cause you can't even handle the truth
