Self start, nigga watch me take flight
It's just a start, nigga watch me buzz light

Coming from the bottom to the top took so much energy
Been feeling kinda lonely at the top that ain't my memory

Don't think too much just start living
I'm just here minding my business

Impressed and desperate
I feel too blow to sing, the stress the pressure
You niggas know that I refresh the blessings
I think I'm chosen, I'm just check it check it
No witnesses but I'm just learning lessons
Politics, niggas they forget the message
Don't feel ashamed boy I accomplish missions
Exceed the standards we was living reckless and living lavish
Deal cards, it took some time but got right
It's just the start, but nigga watch me live life
