She like my style she like my stelo She like the way I talk she
said she like my ego
Girl tell me what's your style
And do I fit your perfect smile

Girl what's your style?
Girl why not mingle?
You ain't too very shy well hey girl nice to meet you
Just me see you smile
I got a feeling I'm your style
We could be friends or we could be cool but I really know deep
down you into me too
Just let me lay you down I ain't afraid I'll hold ya down
You unsecure girl they beneath you
You know I'm here with you girl fuck them other people
We can go some rounds
We might just take this shit around all around

She like my style she like my stelo She like the way I talk she
said she like my ego

And do I fit your perfect smile

I know you wild but I forgive you
And don't you ever think I go against you
I ain't the type to make you frown
We ain't to sure but I believe you
