

You my baby like why would you lie  
I ain't expect that from you  
Whole time you was telling a story  
I really thought you was telling the truth  
Said that I call you all these fucking names  
Like I did not mean to be rude  
Like are you gonna be my boo  
Like Is you gonna ride till the day that we do  
Now you tryna bring up the past  
I thought you had my heart I noticed it ain't last  
You the only one that made me laugh  
Like, Get what you want you don't ask  
Said she wanna go inside for saks  
Get her some drip I like to see her brag  
Made her feel like she don't need her dad

Ran up a bag yea I did it  
I was born in the habit of spinning  
She keep on telling me she wanna talk to me but I don't really wanna listen  
This bitch slime she told me she did it  
She can't come to my door I'm not gonna let her get in  
Like, You was the one that I was killin  
Thought you was real think it will get realer  
Play with my body I'm making a triller  
Run and I'm making a thriller  
Bitch came it was never a setup

Laid in my bed I think she wanna fuck  
Like I'm bout to get in her gut  
After I fuck she told me she in love  
Said she love when I grab on her butt  
You not my bitch, heard you a mut  
She let me beat I'm bout to go dumb  
If you hold it down I might give you my son

You my baby like why would you lie  
I ain't expect that from you  
Whole time you was telling a story  
I really thought you was telling the truth  
Said that I call you all these fucking names  
Like I did not mean to be rude
