

Spin my car in circles till I ran out of fuel
I know this shit is bad for me, but I got nothing to lose
They say "Enjoy the good times while they last"
'Cause soon that shit will soon be in the past

Yeah the truth is funny, yeah the truth it hurts
It will take you round the back and fuck you up

So grab your friends wherever you can, go fuck up your plans
'Cause every second you're not wasting is one you'll never get back
Everyday just comes and goes, I'm not spending it alone
'Cause every second I'm not wasting is one I'll never get back

Smash in all the windows, pull the fixtures off the wall
Yet I can barely hear you over Breeders Cannonball
They say "Enjoy the good times while they last"
Oh 'cause soon that shit will all be in the past
Oh yeah the truth is funny yeah the truth it hurts
It will take you 'round the back and fuck you up

So grab your friends wherever you can, go fuck up your plans
Every second you're not wasting is one you'll never get back
Everyday just comes and goes, I'm not spending it alone
'Cause every second I'm not wasting is one I'll never get back

I'm so heavy from the daily TV daydreams medicate me
I'm so heavy from the daily TV daydreams medicate me

So grab your friends wherever you can, go fuck up your plans
'Cause every second you're not wasting is one you'll never get back
Cut my hair and get a job, that don't sound like me at all
'Cause every second I'm not wasting is one I'll never get back
