

# Lost

## Sea Girls

You held your head among the stars  
Fashioned the fear from the dark

Not much happens, not to me  
Not much happens, no  
Lately

I'm a little lost, a little lost  
Come and save me  
I'm a little lost, little lost  
Come and save me  
Don't have to try, don't have to fake it  
Girl you're dangerous  
When I'm a little lost, little lost

I felt alone when you called  
You've got much more to share  
But I know you're torn

'Cause not much happens, not to me  
Not much happens, no  
Lately

I'm a little lost, a little lost  
Come and save me  
I'm a little lost, little lost  
Come and save me  
Don't have to try, don't have to fake it  
Girl you're dangerous  
When I'm a little lost, little lost

And all my friends  
They wanna know  
Why I'm holding on and won't let go  
My sister she often asks  
Why I'm don't concern you to the past

I'm a little lost, a little lost  
Come and save me  
I'm a little lost, little lost  
Come and save me  
I'm a little lost, a little lost  
Come and save me  
I'm a little lost, little lost  
Come and save me  
Don't have to try, don't have to fake it  
Girl you're dangerous  
When I'm a little lost, little lost  
Come and save me

And all my friends  
They wanna know  
Why I'm holding on and won't let go  
My sister she often asks  
Why I'm don't concern about the past

Just come and save me

Come and save me  
Just come and save me  
Just come and save me
