

Soldier On

Sea Girls

I, I hope you feel better
I wonder if you know we're in this together
Just a little time to say whatever
How, how are you coping?
You never wanna eat and your eyes are soaking
You haven't slept for weeks and your back is broken

I wonder if you know
How wonderful you are
Hold on to the ache inside your heart

Stand up, the time has come
Don't give a shit, you're only young
They say your fashion's come and gone
Just soldier on, just soldier on
They're living in a constant fear
Of losing love so let's be clear
There's jealous hearts in everyone
Just soldier on, just soldier on
Just soldier on, just soldier on

Soldier on and make them pay
The moment's gone but you should stay
And everything falls into place
Your wasted time won't leave a taste

I wonder if you know
How wonderful you are
Hold on to the ache inside your heart

Stand up, the time has come
Don't give a shit, you're only young
They say your fashion's come and gone
Just soldier on, just soldier on
They're living in a constant fear
Of losing love so let's be clear
There's jealous hearts in everyone
Just soldier on, just soldier on
Just soldier on, just soldier on

I wonder if you know
How wonderful you are
Hold on to the ache inside your
Inside your
Inside your

When you feel you've come undone
Just soldier on
When you feel you've come undone
Just soldier on
You're only young
Just soldier on
When you feel you've come undone
Just soldier on
