

## I'll Built a Fire

Seabear

I went looking for a ghost in me  
Now I can see, now we can see  
Where we are finally I can sing hard  
Touch your face with the length of your palm  
I'll build you a fire, I'll build you a fire  
If you sing in the night falling down

I'll build you a fire, a fire

I went looking for a ghost in me  
Now I can see, now I can see in dreams  
I'll build you a fire, I'll build you a fire  
If you sing in the night getting high, high, high

I'll build you a fire, a fire

They when looking for a stone in me  
Pull it out of my skin 'till I see  
Where I should be, how I should feel  
So I'll build you a fire, I'll build you a fire  
If you sing in the night you'll be all right

I'll build you a fire, I'll build you a fire  
I'll build you a fire, I'll build you a fire
