

Not Alone

Seabird

At arms length you held your spouse and children
Your lack of grace
So nearly killed them
Forgiveness still breathes
He may not wake for years
You promise me still that this won't end in tears?

'Cause we're not alone, no we're not alone now honey
Save your own 'cause were not alone

Back home to find the garden as you left it
Roses in full bloom
So glad you invested
So you found this room couldn't hold you down
Step through these walls
And listen for the sound

Not alone, no we're not alone now honey
Save your own 'cause were not alone
Not alone, no we're not alone now honey
We'll make it home 'cause were not alone

Hold us close
It meant so much
Maybe more than you knew
Laugh a while
Burn like fire
Love us again just like you used to
Sing so loud
Make us proud
Please say just what you heard
Listen closer
Hold your tongue
Your tired eyes speak louder than words
Speak louder than words, come on

Not alone, no we're not alone now honey
Save your own 'cause were not alone
Not alone, no we're not alone now honey
We'll make it home 'cause were not alone

Not alone, no we're not alone now honey
Save your own 'cause were not alone
No not alone, no we're not alone now honey
We'll make it home 'cause were not alone
