

Patience

Seabird

So be patient, patient
When waiting for the gold
And wait only as long as you have to
Don't wait 'til you're too old
'Cause I stood outside so long
And I stood 'til the bark on every tree was gone

So come on home tonight
And fight for what you know
And say what you think
But please say it in love
If you follow the crowd
Just promise me one thing
Please know your heart
Before you begin to sing

'Cause I'm on my way back home
And I found that the story was true all along

'Cause I'm on my way back home
And I found that the story was true all along
So you get, won't you get through to me?
And the sound of your voice was the one that carried me

Oh the sound is breaking all my bones
And won't you sing again
I love it
The fight of my life is knocking at my front door
And won't you let him in this time
And won't you let him in this time
