

# Cloud

Seafret

If you're gonna be a cloud  
Fly by  
If you're gonna be a cloud  
Fly by

I know I don't know you yet  
Got me wanting to confess  
Take my money place my bet

Wrote your name across my soul  
Cross my heart and pay the toll  
To go anywhere you go

Oh, you got me wanting, wanting  
Oh, and I'm wondering

Are gonna be a cloud in my sky?  
Are you gonna be a tear in my eye?  
Are you gonna be another drive-by?  
Take your shot and I'll take mine

Are you gonna be the best one yet?  
The one that I never regret?  
Are you gonna be a book that I read  
That I don't ever want to end?

If you're gonna be a cloud  
Fly by  
If you're gonna be a cloud  
Fly by

Hallelujah  
Sing your praise  
Love took on so many names  
Your's the only one that I remember

Hallelujah  
I rejoice  
As if I ever had a choice  
The only way to paradise is through you

Oh, got me wanting, wanting  
Oh, and I'm wondering

Are you gonna be a cloud in my sky?  
Are you gonna be a tear in my eye?  
Are you gonna be another drive-by?  
Take your shot and I'll take mine

Are you gonna be the best one yet?  
The one I never regret?  
Are you gonna be a book that I read  
That I don't ever want to end?

If you're gonna be a cloud  
(Are you gonna be a cloud?)  
Fly by (In my sky)

If you're gonna be a cloud  
(Are you gonna stay)  
Fly by

If you're gonna be a cloud, just pass on by  
Beauty ain't enough, don't ask me why  
I just need the real thing with you in it  
With no games, no tricks and no limits

Give me a love that never dies  
Or bury me with all these hopes and lies  
If I had the choice then I'd choose you  
Right now, my sky is so blue

If you're gonna be a cloud  
Fly by  
If you're gonna be a cloud  
Fly by
