Fall

Seafret

Don't sit and wait, just stare at the door
Take the risk it's worth getting caught
One day I'll hear the final call
But the won't shake me
I'm going out standing tall
Won't let them break me

Moments of sheer delight looking back at the times
We were fearless

Tell me what you're waiting for
Why you're not trying
I can't wait around anymore
I can't keep hiding
They want me to fall
They want you to fall
Tell me what you're waiting for

(Tell me what you're waiting for)
(Tell me what you're waiting for)

No-one knows who's really to blame
You have no choice just do as they say
Answers going round your head
But you're not talking
Just going with the flow instead
The fear of falling

Moments of sheer delight looking back the times
We were fearless
I can't tell how was right
Looking back on my life and my heroes

Tell me what you're waiting for
Why you're not trying
I can't wait around anymore
I can't keep hiding

You want me to fall
You want you to fall
They want us to fall

(Tell me what you're waiting for)
(Tell me what you're waiting for)
(Tell me what you're waiting for)
(Tell me what you're waiting for)

Tell me what you're waiting for
Tell me what you're waiting for
I've seen it all before
Tell me what you're waiting for
Tell me what you're waiting for
Staring at the door
Tell me what you're waiting for
Tell me what you're waiting for
I've seen it all before
Tell me what you're waiting for

Tell me what you're waiting for

Tell me what you're waiting for
Why you're not trying
I can't wait around anymore
I can't keep hiding
You want me to fall
You want you to fall
They want us to fall
