

Inferno

Seafret

Even if I wanted to, I couldn't stop
We got the fire burning way too hot
Felt so good
With your hand in mine
Like summertime

Wish there was something that could switch our fate
I've tried it all but there is no escape
I'm still here surrounded by the flames
Like nothing's changed

Maybe I was born to lose you
They say that we're made by what we go through
But I don't want to grow up too soon
And let all we know go up in smoke

Give me one good reason to let go
'Cause there's a voice inside my head
That follows me around like an echo
Tells me to fight until the end

We started a fire, lit all the sky up
It's gonna burn 'til there's nothing left
So give me one good reason to let go
And stop the voice inside my head
Inferno

I watched the fire burn out every page
I lose you a little more with every step I take
But I can't think of a better place
To lose my way, my way

Maybe I was born to lose you
They say we're made by what we go through
And I don't wanna grow up too soon
And watch all we know go up in smoke

Give me one good reason to let go
'Cause there's a voice inside my head
That follows me around like an echo
That tells me to fight until the end

We started a fire, lit all the sky up
It's gonna burn 'til there's nothing left
So give me one good reason to let go
And stop the voice inside my head
Inferno

This could rise from the ashes
So I search for a sign of life
So blind to all of the damage
And can't keep away from the light

It's like an inferno
It's like an inferno
Whoa

Give me one good reason to let go
'Cause there's a voice inside my head
That follows me around like an echo
That tells me to fight until the death

We started a fire, lit all the sky up
It's gonna burn 'til there's nothing left
So give me one good reason to let go
And stop the voice inside my head
Inferno
