

Never Say Never

Seafret

Toe to toe in the ring
Up against the ropes
Fighting backwards

You're in all of my dreams
So I never lose hope
Of happy ever after

I was never good at giving in
You're the one I'm fighting for
No, I never say never no more

'Cause you're beautiful
Beautiful
No, I never say never no more

You're beautiful
I won't lose hope
And I'll never say never no more

I watched him ask you to dance
He's playing Romeo
Something about it spells disaster

He took you by the hand
He's saying darling let's go
But he'll be gone in the morning after

I was never good at giving in
Keep fighting for an open door
No, I never say never no more

'Cause you're beautiful
Beautiful
No, I never say never no more

You're beautiful
I won't lose hope
I'll never say never no more
No, never say never no more

Just keep running
A change is coming
When darkness steals the light
I'll be there through it all
I'll be there through it all

Just keep running
A change is coming
When darkness steals the light
I'll be there through it all
And you know who to call
Who to call to tell you

You're beautiful
Beautiful
No, I never say never no more

'Cause you're beautiful
I won't lose hope
No, I never say never no more

You're beautiful
Beautiful
Beautiful
Beautiful
