

Parachute

Seafret

I love your hair, how it shines in the sun
And how we kiss in the dark
Sometimes I feel like my race is run
Then you take me back to the start

The road looks tricky straight up ahead
But we keep doing our best
You are the light that shines the dark from my head
My little glass of happiness

Don't be afraid to let go
I'll be here when you get home
The best things are worth waiting for
We can fall right out of the highest plane
With you by my side, I know I'll be safe
You're my parachute
You're my parachute

Time went by and we stuck to the road
Through storms always holding on
Because of you I will never be alone
Because of you I am strong

Don't be afraid to let go
I'll be here when you get home
The best things are worth waiting for

As long as I got you, yeah
I don't care how far I fall
As long as I got you, yeah
I see the beauty of it all, oh

Well, sometimes it got hard to breathe
You give me faith, I kick my feet
At last the jigsaw is complete
Swear someone's looking over me
Can't ever let you go now
Won't ever let you go now

Don't be afraid to let go
I'll be here when you get home
The best things are worth waiting for
We can fall right out of the highest plane
With you by my side, I know I'll be safe
You're my parachute
You're my parachute
You're my parachute
You're my parachute
