

Pictures

Seafret

I take pictures with my mind
I know I'm gonna miss
This time of my life

In a year your face will change
'Cause nothing stays the same
We're perfect at this age

I will miss these golden years one day
I will wish these golden days
Would stay for a while
'Cause I love to see you smile

Never want this day to end
The sunlight on your skin
Your fingers in my hand

Every night I hold you close
Make sure you always know
That I love you the most

I will miss these golden years one day
I will wish these golden days
Would stay for a while
'Cause I love to see you smile

May sound crazy but it's true
Every moment here with you
I feel happier, makes me happier

When the memory starts to fade
I'll remember golden days
And feel happier
And feel happier

La, la la la la la la
La la la la la la
La la la la la la

I will miss these golden years one day
I will wish these golden days
Would stay for a while
'Cause I love to see you smile

I take picture with my mind
I know I'm gonna miss
This time of my life
