

# Why Do We Stay

Seafret

He had a temper and when it went off was as deadly as a gun  
He made her feel like she had nowhere to run  
Clinging together like honey and leather  
Ridiculous when you look back  
Like it was preordained  
They wore everything black

Why do we stay?  
Stay surrounded by people that don't want us  
In places we're not wanted  
Tell me why you stay  
Stay surrounded by people that don't want you  
In places you're not wanted  
Tell me why you stay

Sits and the table and goes through the motions  
Telling herself that she's trapped  
Faking a smile, it doesn't have to be like that  
No room to breathe he was lost in the silence  
Wondering what he did wrong  
Thinking that no one cared  
Feeling like the only one

Why do we stay?  
Stay surrounded by people that don't want us  
In places we're not wanted  
Tell me why you stay  
Stay surrounded by people that don't want you  
In places you're not wanted  
Tell me why you stay  
Tell me why you stay

The truth in your heart is a ticking bomb  
The voice inside telling you to run  
Keeps screaming to move it along  
I want you to know there's always a way out  
Heavens out there somewhere but you have to leave now

Tell me why we stay  
Stay surrounded by people that don't want us  
In places we're not wanted  
Tell me why you stay  
Stay surrounded by people that don't want you  
In places you're not wanted  
Tell me why you stay  
Tell me why you stay  
Tell me why you stay  
Tell me why you stay
