

Time

Sean Kingston

Time waits for nobody
But I can wait with you tomorrow, whoa whoa whoa
I say time stays with nobody
But I will stay with you tomorrow whoa whoa whoa
Symphony, symphony sing, you a symphony
She want da loving to enter her center yeah (enter her di center yeah)

Balance, (chi) my baby got balance yeah
Fountain blue we in a hotel lobby, flex more poppin'
Life's so exciting, that 5000 jets play
Hard like Rocky, lifestyle lavish
Counting my blessings like Bruno
Anybody wanna vex me, stress me
We everywhere where the checks be
You got me blessings yeah yeah yeah yeah

Time waits for nobody
But I can wait with you tomorrow, whoa whoa whoa
I say time stays with nobody
But I will stay with you tomorrow whoa whoa whoa
Symphony, symphony sing, you are symphony
She want da loving to enter her center yeah (enter her center yeah)

Shorty you willing
Don't got no mileage, you too damn fly
Don't get me started, I'm loving the vibe yeah, I wonder why oh
(Aye) You get me higher than my weed spliff
The only one I wanna be with
Giving you my heart don't you change it
I know you want to
I want our feeling combine
You got my feeling up in the sky
Enough of dem try to talk I wonder why, I rather have you by my side

Time waits for nobody
But I can wait with you tomorrow, whoa whoa whoa
I say time stays with nobody
But I will stay with you tomorrow whoa whoa whoa
Symphony, symphony sing, you are symphony
She want da loving to enter her center yeah (enter her center yeah)
