Happiness

Sean Lennon

Have you ever felt before
That everyone around you knows the deal
Except you
And it makes you feel
Like a moray eel
Green and blue

But listen up because
I know just how it feels to want more than you have
In life

Have you ever felt uncool
On the way to school, you drag your feet around.
Sometimes you act like a fool
Just to get her to look over at you

But listen up because i know just how it feels
To be the only one without a clue
Happiness is when you're not stressed
Though you messed up many things
And all the rest
You can forget 'cause its not worth suffering

Maybe i'm not all that you expect me to be
But one day
I'll show you all i can be
