# Build

**Sean Paul**

Build wi fi build, wi fi build, wi fi build
Wi fi build Jamaica and stop from kill

Skill wi fi skill, wi fi sharpen wi skill
Don't end up in a none a the prison weh dem build

Till wi fi till, wi fi till up the soil
And build up wi kyle
Plant food pon the hill
Jamaica brilliant, and well eliziant
Time get hard but wi naw left yah still

Caw this a fi mi town
This a fi mi district
This a fi mi home and mi naw left alone

Yow this a fi mi town
This a fi mi district
Saying it again just incase you mist it

This a fi mi town
This a fi mi district
Yah suh weh mi born and grown mi nuh misfit

This a fi mi town
This a fi mi district
Jamaica

Youth in a the street dem need a role-model
Suh dem can see how fi reach the pinnacle
Life it hard and a nough obstacle
Suh you haffi check peep because the road sipple
Build wi fi build up wi kyle till hi triple
I must insist every mukkle meck a mickle
Be kind to the blind, and be kind to the cripple
Every man was once a baby pon nipple
Chill wi fi chill and stop floss sometime
Spend dollars and coins pon education

Read you fi read, you fi read, you fi read
That Marcus Garvey tell the nation
Tek out the bye, bye, the meditation
Nough people under sufferation
Nough people under frustration
But wi haffi build back caw better must come

Up deh, up deh, up deh, up deh, up deh
Meck mi see you hands up if you love fi you country

Up deh, up deh, up deh, up deh, up deh
Meck mi see you hands up if you naw go give up deh

Up deh, up deh, up deh, up deh, up deh
Jamaica fi stand up and wi have to live up deh

Up deh, up deh, up deh, up deh, up deh

Jamaica
