Never follow rumors girl
You know you are my world
Yeah man
Me sing it like this baby girl

Give it a chance, don't let it go
I'll be loving you again
This is one thing you should know
I'll be loving you over again
You should never listen your friends
I'll love you all over again
We should never let this end
Wooo-oooo-oooo-ooooh

How many times they try to come between us
And try to intervene us girl with their lies and false allegation
Straining this relation girl
