Sean Paul

Rastafari  
Bless the man dem deh ain't no stress  
You done know god bless with the positiveness  
They say many more but the whole world a joy  
Keep on the track  
Troyton touch the sky!  
Open up your third eye

From the right morning morning morning  
Destiny calling calling calling  
Light up di gyalis, give thanks fi life  
And mi know the devil can't win  
Inna this morning morning morning  
Badmind falling falling falling  
Mi vibe beat dem wid pressure  
Man a feeling better  
You know the devil can't win

From we have life fi live it  
No negativity on  
Dem can't hold we down  
God help we fi push to di limit  
Oh lord, i am giving it up  
Fill up my cup , dont let those enemies in it  
They dont really know love  
Let the lights keep shine every minute  
We ain't giving it up

From the right morning morning morning  
Destiny calling calling calling  
Light up di gyalis, give thanks fi life  
And mi know the devil can't win  
Inna this morning morning morning  
Badmind falling falling falling  
Mi vibe beat dem wid pressure  
Man a feeling better  
You know the devil can't win
