

Come Back To Bed

Sean Stemaly

It started with some off-time
Dancing in the kitchen led to red wine
Painted on your lips, and takin' my time
Kissin' it off, trail of clothes down the hall
Led to all night long, yeah

Ooh-ooh-ooh
Don't let sun coming up tell us what we gonna do
Ooh-ooh-ooh
Girl, you know that I ain't done loving you

So come back to bed, baby don't leave
If I said I need your body, would you hold it against me?
Don't open the blinds, lets hit rewind
Take our time re-living every single minute of last night
These two hands, left a lot unsaid
If you ain't out the door then it ain't over yet
So baby, come back to bed (Baby, come back, baby, come back)
Come back to bed (Baby, come back, baby, come back)

I love the way my t-shirt is fallin' off your shoulder
And these sheets girl, they're only getting colder
Instead of picking out a dress that won't do ya justice
How 'bout you slip into nothin' and just

Come back to bed, baby don't leave
If I said I need your body, would you hold it against me?
Don't open the blinds, lets hit rewind
Take our time re-living every single minute of last night
These two hands, left a lot unsaid
If you ain't out the door then it ain't over yet
So baby, come back to bed (Baby, come back, baby, come back)
Come back to bed (Baby, come back, baby, come back)
Baby, come back to bed

Ooh-ooh-ooh
Yeah, I know you got somewhere you gotta be
Ooh-ooh-ooh
Yeah, you're right it's right here next to me

So come back to bed, baby don't leave
If I said I need your body, would you hold it against me?
Don't open the blinds, lets hit rewind
Take our time re-living every single minute of last night
These two hands, left a lot unsaid
If you ain't out the door then it ain't over yet
So baby, come back to bed (Baby, come back, baby, come back)
Come back to bed (Baby, come back, baby, come back)
Baby, come back to bed (Baby, come back, baby, come back)
Come back to bed (Baby, come back, baby, come back)
Baby, come back to bed
