

Country Does

Sean Stemaly

Cornfield combine make a dust cloud
Blue gill on the line, take a bobber down
Sweat tea tastes better at your mamas house
Yeah, you damn well know what I'm talking 'bout
Front porch with a bird dog on it
Take another drive down to the Sonic
Water tower State Champs painted on it
'Round here we know

It's more than the songs coming out of the speakers
Or that ring on the back of your jeans
It's more than the color of the collar on the back of your neck
It's knowing that your roots run deep
It ain't the boots that you wear or the truck that you drive
Ain't the state that you're in, it's the state of mind
It's how you live and how you love
Country is as country does

Small town, pretty girl with some big plans
Hit a knee, get a ring on her left hand
Little piece of heaven sitting on some farm land
I tell you what, man

It's more than the songs coming out of the speakers
Or that ring on the back of your jeans
It's more than the color of the collar on the back of your neck
It's knowing that your roots run deep
It ain't the boots that you wear or the truck that you drive
Ain't the state that you're in, it's the state of mind
It's how you live and how you love
Country is as country does, yeah

It ain't something you can go out and buy
Ain't something you can turn into overnight naw
It ain't a trend, ain't a time, ain't a place
It's how you're born and raised

It's more than the songs coming out of the speakers
Or that ring on the back of your jeans
It's more than the color of the collar on the back of your neck
It's knowing that your roots run deep
It ain't the boots that you wear or the truck that you drive
Ain't the state that you're in, it's the state of mind
It's how you live and how you love
Country is as country does
Country is as country does
Country is as country does
