

Hello, You Up

Sean Stemaly

I've drank at this bar many nights and days and
Tipped a few back for many occasions
But I never thought I'd be sittin' here drinkin' 'cause I was missin'
you
Tequila don't kill the pain
When you done lost everythin'
And I still feel the same
So if you'll listen all I wanna say is

Girl, I'm just a "Hello, you up, do you wanna come over?
I know you think that I probably ain't sober
I'm just alone and I'm missin' your shoulder" away
Yeah, I'm just an "I know we said that we needed some space but
I don't want nobody else in your place
When we said goodbye, well, maybe we made a mistake"
So if you're awake
Girl, I'm just a "Hello, you up, do you wanna come over?" away

Your friends are my friends
And you know that they care about you
So I know how you've been
Sounds like you been stayin' in 'cause you're missin' me too
No, I ain't heard from you, not a word from you
Baby, since the Earth crumbled under my feet
I hope you know you can always call if you're ever there wantin' to t
alk to me

Girl, I'm just a "Hello, you up, do you wanna come over?
I know you think that I probably ain't sober
I'm just alone and I'm missin' your shoulder" away
Yeah, I'm just an "I know we said that we needed some space but
