

Man Down

Sean Stemaly

I watched your taillights fade right into black
Someone's telling me that she ain't ever coming back
She shot that goodbye, went right through my chest
I hit the floor, she slammed the door and left me for dead
Now it's SOS, need a neon shelter
Hey bartender, any way you could help a

Man down, man down
She took me to the ground
My heart's barely beating after watching her walk out
Man down, man down
She left me in the dust
Yesterday she loved me but now I've become
A man down at this bar
Down on his luck
Throwing down these double rounds
Getting Tennessee tore up
It's down to last call and I still can't explain
How sweet southern thing could so easily take a man down
Ooh man down

Take a man down to a level that he's never been
On a small town knock out that ever didn't mend
Every angel's got her wings, every man's got his weakness
She's hands down only thing that's ever gonna keep this

Man down, man down
She took me to the ground
My heart's barely beating after watching her walk out
Man down, man down
She left me in the dust
Yesterday she loved me but now I've become
A man down at this bar
Down on his luck
Throwing down these double rounds
Getting Tennessee tore up
It's down to last call and I still can't explain
How sweet southern thing could so easily take a man down
A man down

Man down, man down
She took me to the ground
My heart's barely beating after watching her walk out
Man down, man down
She left me in the dust
Yesterday she loved me but now I've become
A man down at this bar
Down on his luck
Throwing down these double rounds
Getting Tennessee tore up
It's down to last call and I still can't explain
How sweet southern thing could so easily take a man down
A man down
Why'd you have to take this man down, man down?
Ohh man down
