

Neon Nowhere

Sean Stemaly

There ain't no car in the driveway
I'm on a bar stool, she's on the highway
Yeah she left me without warning
I'm gonna feel this in the morning
So play me the saddest song on the juke box
Pour me something strong on the rocks
Yeah anything to make my heart stop hurting
Cause I know her wheels are gonna keep on turning

We're both goin' full throttle
But she's on the road and I'm on the bottle
We're both gone like the wind
But she ain't in the state I'm in now
All the whiskey in Kentucky won't drown her
And goin' on seems off without her
She's out there somewhere
And I'm right here goin' neon nowhere

I take a long drag off a cigarette
A shot of Johnny Red to get her outta my head
Cause it seems like she's been gone forever
Guess it's gotta worse before it gets better

We're both goin' full throttle
But she's on the road and I'm on the bottle
We're both gone like the wind
But she ain't in the state I'm in now
All the whiskey in Kentucky won't drown her
And goin' on seems off without her
She's out there somewhere
And I'm right here goin' neon nowhere
Goin' neon nowhere

Yeah we're both goin' full throttle
But she's on the road and I'm on the bottle
We're both gone like the wind
But she ain't in the state I'm in now
All the whiskey in Kentucky won't drown her
And goin' on seems off without her
She's out there somewhere
And I'm right here goin' neon nowhere
Goin' neon nowhere
