

## Aeons Of Desolation

Sear Bliss

The wind sighed among the trees  
The fallen leafs crackled  
On the sleeping landscape  
It was a sad, still voice  
And I hear, only I hear it  
The only human being in the night  
Among the hungry shadows  
Who are smelling the breeze  
Which is carrying the secret dreams  
Hidden desires  
I hear as the wind brings it towards me  
And from the impasse it always returns  
I hear  
Only I hear it  
As the naked wind weeps through the night
