

# North Star

Searows

Talk to the moon  
While I wait  
For a ride home  
I'd stay but I don't wanna bore you  
I guess this can wait  
You'll be there when I get home  
You're all I can see from the rearview  
Stay right where I can see you  
Count all the places I think we should run to  
Somewhere with nothing to do  
It's always too loud hope the noise doesn't scare you  
I don't know what else came before you  
You must know that I just adore you

And I want you to have it all  
All you ever needed  
The minute that you fall  
And I wanna be a saviour  
I don't wanna need anything  
When you're all that I've got to lose

Stay on the line I just want you to be here  
I still see the light through the window  
Wait for the tide to come in  
And my feet hurt  
We walked all the way on the same road  
I promise it won't be too long though

And I want you to have it all  
All you ever needed  
The minute that you fall  
And I wanna be a saviour  
I don't wanna need anything  
When you're that I've got to lose

But don't you ever tire of all that?  
Picking up the pieces you don't have to be alone  
When you're the place I wanna go  
And if you ever wanna fall back  
I'll let you go  
But when it's said and done  
I'll be the north star that takes you home
