

Destroyer

Seasick Mama

Taking off from family rockin' blue suit,
Crossing states adventure inside of you,
You have a vision of how it should be.
Just come, just come, back to me.

Keep the beacons of honor burning inside my soul.
Keep the beacons of honor burning in my soul.

You're not my little brother. You are that big destroyer.
Bad mother fucker, body under water.

You're not my little brother. You are that big destroyer.
Bad mother fucker, raised in the tide deep.

Standing alone like a mountain on a slow creep.
You make the darkness retreat.
You do that solider dance. You do that big stance.
You still love your lazy friends.

Keep the beacons of honor burning inside my soul.
Keep the beacons of honor burning in my soul.

You're not my little brother. You are that big destroyer.
Bad mother fucker, body under water.

You're not my little brother. You are that big destroyer.
Bad mother fucker, raised in the tide deep.
