Man Overboard

Seasick Mama

Told myself go somewhere far Where no one will see us Don't sleep up we can't take it too far You can tell her it's nothing between us

You made it crystal clear
That you are too scared to make waist

Dirty water will exhaust you
And it does
You'll burn out fast
Don't settle this easy if you're not happy
Break out the storm and pull it down

Dirty water will exhaust you And it does You'll burn out fast Start swimming ... Cause if you're waiting Calling SOS man overboard There's a man overboard

Gave my love to a sad man

He made me wait

Made me wait

Keep your options open

Hand in hand with a mad man

Oh what would it take

Will you know whose heart goes broken?

You made it crystal clear
That you are too scared to make waist

Dirty water will exhaust you And it does You'll burn out fast Don't settle this easy if you're not happy Break out the storm and pull it down

Dirty water will exhaust you And it does You'll burn out fast Start swimming ... Cause if you're waiting Calling SOS man overboard There's a man overboard

You made it crystal clear Now it's crystal You made it crystal clear That you are too scared to make waist

Dirty water will exhaust you
And it does
You'll burn out fast
Don't settle this easy if you're not happy
Break out the storm and pull it down

Dirty water will exhaust you And it does You'll burn out fast Start swimming ... Cause if you're waiting Calling SOS man overboard There's a man overboard

Don't settle this easy if you're not happy Break out the storm and pull it down

Start swimming ...

Cause if you're waiting

Calling SOS man overboard

There's a man overboard

Don't settle this easy if you're not happy
Break out the storm and pull it down
Start swimming ...
Cause if you're waiting
Calling SOS man overboard
There's a man overboard
Don't settle this easy if you're not happy
Break out the storm and pull it down
Start swimming ...
Cause if you're waiting
Calling SOS man overboard
