

Church Of Me

Seasick Steve

I was born but never was
So I took my leap
Heading down that old track
Never did look back

I was born a leaf
I was born a leaf

Never had much education
Except what the road could teach
Never wanna be in no church
Didn't wanna hear them preach

I ain't no believer
But I sure do believe
Just wanna go my own way
Try to get free

Never been no bad man
And I know right from wrong
I don't need no book to tell me
Or hear it in a hymn song

I really don't need
I just don't need
Just wanna go my own way
Try to get free
Just wanna go my own way
In the church of me
In the church of me
In the church of me

I don't need no fancy building
It's everywhere I see
In the church of me

And you can have your own church
Just call it the church of you
Just be your own self
That's all you got to do
In the church of you
In the church of me
In the church of you
In the church of me
In the church of you
In the church of me
In the church of you
In the church of me

When it come time to let me rest
I'll be ready, see
Ain't live no life of regrets
Been who I wanna be
Who I wanna be
Who I wanna be

Just went my own way

Try to get free
Just went my own way
In the church of me
In the church of me

You can have your own church
Just call it the church of you
Just be your own self
That's all you got to do
In the church of you
In the church of me
In the church of you
In the church of me
In the church of you
In the church of me
In the church of you
In the church of me
In the church of you
In the church of me
In the church of you
In the church of me
