

# Internet Cowboys

Seasick Steve

I wanna tell ya one thing now, so listen up my children  
The world ain't what it used to be  
They got us hypnotized, got us mesmerized, but it's just a parl  
or trick  
They gonna empty your pockets and they just wanna do it quick  
Back in the day snake oil man, maybe little sleight of hand  
I tell ya children nothing has changed, it's still the same old  
plan  
Give em what ya got so they can have more, they ain't got a mor  
al bone  
They the internet cowboys riding hard right into your home

Internet cowboys right into your home  
Internet cowboys right into your home  
Internet cowboys right into your home

They gonna rob you blind but pay it no mind 'cause you're just  
a sitting duck  
Spend all day on the internet so I say what the 'Hey'  
I guess you don't want no advice, you probably just think I'm m  
ean  
'Cause I just say get a life and get off them screens  
Get off them screens

Cos the internet cowboys - they the ones that mean  
Yeah the internet cowboys - they the ones that mean  
The internet cowboys - they the ones that mean

Well ya heard my thoughts on the matter, believe there's only o  
ne way out  
Shut down that MacBook Air and turn your life about  
Get yourself a record player or maybe a guitar  
Spend a little time with yourself, try to find out who you are  
Find out who you are

Don't give em what they want so they can have more and don't ya  
throw them no bone  
They the internet cowboys riding hard right into your home  
Back in your home

The internet cowboys want inside your home  
The internet cowboys want inside your home  
The internet cowboys want inside your home  
The internet cowboys want inside your home  
The internet cowboys want inside-  
Man they wanna get inside your home  
Ya just gotta shut down them screens y'all  
Lord have mercy
